

# SOLDIERS REPORT FOR MILITARY DUTY

## DAILY ROUTINE WILL NOW BE CARRIED OUT.

At Roll Call This Morning There Were Nineteen Missing—Company Paraded the Streets This Morning—Captain Hanson Has Received No Orders As to Future Movements.

The stars and stripes were hoisted over the Armory this morning and members of Co. A, First Wisconsin Regiment are now doing daily drill further orders. This is in accordance to law, which states that at the expiration of a furlough members must daily report to their company till further orders.

The company this morning appeared on the streets in full military uniform, and made a parade headed by a bass drum. They made an excellent appearance and showed that they are again ready for duty whenever the call is issued.

The Daily Round of Duty  
Capt. Hanson has outlined the following program which will be carried out daily till orders to the contrary are received.

|                  |            |
|------------------|------------|
| Roll call.....   | 6:00 a. m. |
| Police call..... | 8:00 a. m. |
| Drill call.....  | 8:30 a. m. |
| Assembly.....    | 9:30 a. m. |
| Parade.....      | 9:45 p. m. |
| Assembly.....    | 5:30 p. m. |
| Retreat.....     | 6:00 p. m. |
| Guard mount..... | 7:30 p. m. |

On the Corn Exchange this afternoon at 5:15 dress parade was held and will be at this hour till further orders are received.

The lowering of the flag will take place at this time, and out of respect it is customary for all men present to remove their hats.

At roll call this morning all but nineteen members responded when their names were called. Of the nineteen absent members ten are on the sick list and nine reside out of the city and were unable to be present.

Those who are on the sick list, but who are well on the road to recovery are Sergeant Manthei, Corporal Knipschild and Privates Iman, McQuade, Morton, Mitchell, Reynolds, Saltzer, Towsley and Snyder.

The Future  
What the future has in store for the boys in blue is, indeed a problem that they themselves are unable to solve. Their thirty day furlough came to an end last evening, but at last accounts no order had been received extending the time, no paymaster has put in an appearance, and there is a feeling not only of uncertainty but of unrest among the troops.

There is one point that the soldiers all agree on, and that is in the matter of receiving what money they have coming to them. The most of them say that just at the present moment it would come in real handy.

As the outlook now is there is much uncertainty about whether the boys will be ordered south again, mustered out here, or have their furlough extended.

# FRANCE TO YIELD.

## Will Not Risk War Over the Question of Fashoda.

Paris, Oct. 11.—The French government is apparently preparing to drop all claims in the Nile valley based on Marchand's occupation of Fashoda. The Matin, which is supposed to be directly inspired, says:

"It is improbable that we shall risk war for the sake of nominal possession of territories which Egypt, which has had them within her grasp, has never been able to retain. We can retain our honor without retaining Fashoda. Prudence should tell us not to lead ourselves with too much territory. We should be colonial, but in moderation."

The statement of France's case thus plainly made by the Matin has attracted much attention, as it is believed to be indicative of the government's weakening policy.

All the serious newspapers are dignifiedly calm. The Temps and Journal des Debats defer comments until they receive copies of the British blue book, of which they have as yet only the telegraphed summary.

Melaine's Republique Francaise is somewhat less reserved, but seems more inclined to make political capital by blaming Delcasse than by demanding extreme measures in opposing Great Britain.

# To Muster Out Indiana Troops.

Indianapolis, Ind., Oct. 11.—The disbanding of the Indiana volunteers has begun at Camp Mount. The One Hundred and Fifty-seventh regiment arrived after its furlough. Lieut. T. May, who has been appointed mustering out officer, has established his headquarters at Camp Mount, where he also has command of the regiment, Col. Studebaker being too ill to appear. Before the end of the week the Twenty-eighth Indiana battery from Ft. Wayne will return to be mustered out, while the One Hundred and Fifty-eighth and One Hundred and Fifty-ninth regiments will not return until next week.

Clark is about eighteen years of age, and no doubt a term in the reform school would be a just lesson.

# WILL PROBABLY ARRANGE A GAME

## CHICAGO AGREES TO MEET WISCONSIN FOOT BALL TEAM.

Match Will Be Played On Marshall Field On November 12—Manager Fisher Is Not Yet Satisfied, But He Will Look Into the Matter Today.

The University of Wisconsin football team are nearer to a match with Chicago than ever before, and a game has been definitely fixed, to be played on Marshall Field November 12. All doubt in regard to the matter was removed by a letter received by Stagg from the Badger authorities yesterday. The communication was in reply to a request for a game made last week and said that the Wisconsin players would be on hand for the game.

Manager Fisher had not accepted the terms last night when seen by a Milwaukee reporter. He said:

"As I understand it, Stagg wants to dodge the clause in the contract which will force him to play the 1899 game in Madison or Milwaukee. The contract at present reads that the first two games shall be played at Chicago and the third in Wisconsin. Now, the first game of that contract has been played in Chicago, and the second one, which I am negotiating for at present, will be played at Chicago, but Stagg wants the third one there also."

"What is more, he wants a contract signed by us that Phil King shall not be allowed on the field. It is needless to say that we will not enter into such a contract, and that we will not play the third game at Chicago, and unless Stagg will come to time the game will not be played this year or for some years to come."

"I am simply representing the athletic association of the university in this matter. It decided to accept the challenge of Chicago on these conditions. The alumni of the university were against accepting Chicago's challenge on any condition. While in Chicago I shall meet Mr. Stallings and if Mr. Stagg does not come to terms I will arrange for the Wisconsin team to play the Carlisle Indians at Detroit Nov. 12."

# Furniture Men May Quit.

Oshkosh, Wis., Oct. 11.—The consolidation of all the furniture factories in the northwest is now in active contemplation, and a movement on foot with that end in view seems likely to be successful. A committee has been in conference with the large manufacturers to ascertain their views on this big undertaking. This committee had a meeting with local manufacturers, and details were discussed. The scheme is to place the companies under one general head, by which the output can be controlled, territory fairly distributed and expense of management decreased.

# INDIANS STILL RECALCITRANT

## SHOW NO DISPOSITION TO SUBMIT TO AUTHORITY.

Gen. Bacon Asks For All the Troops In Sight At Fort Snelling—A Decisive and Sanguinary Battle Expected In a Few Days—Conference Postponed.

St. Paul, Oct. 11.—[Special]—Private advices received here state that the situation at Leach lake is exceedingly grave. The Indians seem insusceptible to persuasion, and force will be required to convince them of the necessity of compliance with the orders of the federal authorities. There is every prospect of a decisive and bloody battle ere many days, but it will not take place until troops now enroute from Duluth and Fort Snelling arrive. The Indians have been disappointed in their expectation of aid from the White Earth reservation. Perhaps they will see the hopelessness of their cause before it is too late, but the probability is that they will remain obstinate.

Minneapolis, Oct. 11.—[Special]—Col. Sturgis, in charge of the department of Dakota, has received a telegram from Gen. Bacon, directing him to send all remaining soldiers at Ft. Snelling to Walker as soon as possible.

Walker, Oct. 11.—[Special]—The conference that was expected to take place today will not be held. The Indians are said to be displeased with that part of Bacon's ultimatum in which he threatens to chastise them unless they come in and submit to terms. They think it too warlike.

Walker, Oct. 11.—[Special]—Everything is quiet here this morning. The troops are still at the agency awaiting orders. Runners who were sent to Last with Bacon's ultimatum to the hostiles will not return until Wednesday, until which time there will be no movement of troops.

Only one article was sold, that being a table, for which Zola paid 120 francs. A well known journalist bid 32,000 francs for it, this being sufficient to satisfy the judgment.

# TURKS MAY EVACUATE CRETE.

## Belief That the Porte Will Offer No Further Resistance.

Vienna, Oct. 11.—While waiting the sultan's reply to the ultimatum presented Oct. 5, demanding Turkish evacuation of Crete within one month as the first step toward the pacification of the island, the powers, bent on checkmating the sublime porte by tying the Turk's hands in advance of his decision, continue to send reinforcements to Crete. It is rumored in this city that the czar, desirous of avoiding the possibility of complications among the four powers concerned, has himself instructed his government to suggest to Great Britain, France and Italy that it would be advisable for the admirals commanding the Cretan fleets to come to a mutual understanding, independent of instructions from their governments. That suggestion is thrown out, however, only to anticipate the possibility of it becoming necessary to apply forcible measures to hasten the evacuation of Crete by the Turkish forces.

The belief prevails in diplomatic circles in Vienna that the porte will offer no further resistance, but will withdraw its forces from Crete with the best grace possible under the circumstances, and that the evacuation will be begun within ten days, as required by the terms of the ultimatum.

# PARIS PAPERS FAVOR SPANISH

## THEY PLEAD FOR LENIENCY FROM THE UNITED STATES.

Think a Great Nation Can Afford to be Magnanimous—Their Course a Cause of Irritation to the American Commissioners—The War Department Inquiry.

Paris, Oct. 11.—[Special]—The American peace commissioners are somewhat irritated at the officiousness of the pro-Spanish French newspapers. Those sheets are delating that the United States can afford to be generous toward a fallen foe, and insist that Spain should be permitted to retain control over the Philippines, that the United States should assume the Cuban debt, and take other steps toward the rehabilitation of Spain. Not content with the ridiculous propositions the papers are insisting that France and the European powers should take means to secure these advantages for Spain. It is needless to say that the American commissioners will pay no heed to these propositions, yet the animus that prompts them is apparent. It is conceded that the peace conference could not have been held in a more unfavorable atmosphere than that which surrounds it here.

The polling booths are all located in the usual places except that of the first precinct of the Second ward, which will for the next three years at least, be in the brick building owned by the Myers estate on North Main street. The polling places will be open from 9 a. m. to 8 p. m. The second sitting of the boards will be on Tuesday, Nov. 1, just a week preceding the election.

Milton grain buyers are doing business at the old stand, and claim that Janesville buyers have not injured them in the least.

One Milton buyer says that the coming of the Cargills and the Northern Grain company to Janesville has not had the slightest effect on the business, and that he is buying just as much grain as he ever did, and that the farmers residing near Milton prefer to haul their grain there when the same price is paid, for the reason that it is a much shorter distance.

### OIL IS TENDING UPWARD

Material Advance in the Price of Petroleum and a Further Rise Expected

Local dealers and oil-users have been notified of another slight advance. This time the price of crude petroleum goes up a quarter of a cent.

"The price of crude is now \$1.08," said D. N. Hatfield, local agent for the Standard Oil company today. "This is the highest mark in three years."

Men well informed in the oil trade predict \$1.25 oil before Christmas. The causes of the advance are to be found in the facts of production and consumption. For a long time the consumption has greatly exceeded the yield. During the last month shipments have averaged 192,251 bbls daily in all fields and production only 90,097 bbls. At the present rate reserve stocks are being drawn on these will be exhausted in two years unless new producing territory is discovered.

All over the known fields and their extensions an amount of "wildcatting" unprecedented is going on, without thus far developing any new fields. A great deal of interest has been aroused by the purchase of 1,000 acres of oil well tubing and casing by the Standard at Pittsburg within the last ten days. Half of this vast quantity of material is said to be destined for Tennessee, where the Standard is said to have located oil territory.

#### A Welcome Goal

The suffering of the sick who do not know where to go for relief is pitiful. The thought of doctors and the enormous fees they charge is appalling. Many continue to suffer simply because they cannot afford to pay for medical advice. This is not as it should be, and Dr. Greene, the great nerve and blood specialist realizes that fact. He believes in relieving suffering humanity wherever and whenever he can; accordingly his advice is free to all who call upon him or write to him at his office, 148 State street, Chicago, Ill. It is needless to say that the good he does is wonderful. Dr. Greene is also the discoverer of Greene's Nervura blood and nerve remedy, which is the most valuable medicine the world has ever known.

#### The Hawaiian Islands

The Chicago & North-Western Railway has issued a booklet with the above title, giving a brief description of these islands, topography, climate, natural resources, railways, schools, populations, etc. It contains a folding map and mentions the various steamship lines plying between the Pacific ports and the islands. Attention is also called to the unparalleled facilities offered by the North-Western line, "the Pioneer Line west and northwest of Chicago," for reaching San Francisco, Los Angeles, Portland and other western points. The booklet will be sent to any address upon receipt of four cents in stamps by W. B. Kniskern, 22 Fifth avenue, Chicago.

What the Writer of This Letter Means—By Following Her Example You May Have the Same Experience.

Neuralgia is the prayer of the nerves for pure blood. By making rich, pure and nourishing blood, this prayer is answered and neuralgia is cured. Read how it is done:

"I suffered five years with neuralgia. I was told there was no cure for me. After reading testimonials of the good Hood's Sarsaparilla was doing, I decided to give it a trial. To my great relief, after using one bottle I found it was helping me. I have taken seven bottles in all and it has cured me. I continue to take Hood's Sarsaparilla whenever I need a blood purifier. Those who have suffered as I have understand my gratitude for Hood's Sarsaparilla." MISS AUGUSTA M. BEYER, Kenosha, Wisconsin.

## FAVOR REPAVING MILWAUKEE STREET

### THE PROPERTY OWNERS TALK BRICK PAVEMENT.

Say That the Cost Would In the End Be Much Less Than Block—Others Talk Asphalt, But Favor Sewerage First—Thoroughfare Badly Needs Looking After.

That small portion of brick pavement that was completed yesterday at the entrance to the alley that runs from Milwaukee street to the rear of the post office, may mean a good deal to the citizens of Janesville.

Just how it will stand the wear and tear will be watched with interest by many.

That all Milwaukee street from the west end of the bridge to High street badly needs repaving in the near future is a known fact. That this work of repaving should be done in the spring is also the opinion of the majority of people interested, and especially the citizens at large.

That repaving with blocks is not favored by the majority of the property owners is an assured fact, for the reason that it is considered by many as throwing money away in one sense of the word.

#### Material for Paving.

To pave the thoroughfare with either macadam, asphalt or brick, is the problem now before the public, and is a question that is indeed an important one to those who will be called on to stand the bulk of the expense.

That Milwaukee street needs repaving, no one who is thoroughly acquainted with the facts will deny. In many places deep holes are to be found, while in the gutters near Jackson street blocks are missing, making traveling dangerous.

That the entire street is today considered one of the worst in the city to travel on, there is no denying. Cyclists have avoided it, only traveling it when obliged to.

The present pavement was laid in 1888 by David Jeffris, of this city, and for the wear and tear to which it has been subjected it has withstood the racket as well as could have been expected.

#### Brick Pavement Favored

To the city officials who have given much time to the subject of paving it seems that paving with brick is in favor in many of the surrounding cities. It is not as expensive as asphalt, but is much more expensive than block paving. In Rockford, where they have tried all kinds of paving, the principal business streets are paved with asphalt. Several of the resident streets have brick and that it has given the best of satisfaction there is no denying.

"Before I will sanction the repaving of Milwaukee street I will first use all my influence to see if a sewerage system cannot be placed down Milwaukee street its full length," said a prominent land owner on that thoroughfare this morning. "Now don't think that I mean a general system of sewerage. To repave Milwaukee street and get it in fine shape only to tear it up again in a few years to put in sewerage is an extra and needless expense, and one that the owners of property on this thoroughfare should not be subjected to. If the city cannot afford sewerage that is no reason why one cannot be placed along Milwaukee street. Sewerage first and then I favor whatever pavement is satisfactory to the majority."

#### Many Favor Delay.

Many of the aldermen favor paving the street in the spring, claiming that its present condition fully warrants it. Other property owners say that they are not in favor of paving at present on account of the expense, but favor repaving the street when needed, claiming that by such a method it will last for some time.

#### Don't Get Gay.

Col. Roosevelt, in a farewell address to his Rough Riders, advised them not to "get gay" because of the celebrity they had gained, but to quietly resume their duties as good citizens. He also told how a friend had said to him: "You must have been awfully bold to ride up that hill at Santiago in front of your regiment." The colonel replied: "Why, I had to ride like the devil to keep from being run over by my men."

More than twenty million free samples of Dr. Witt's Witch Hazel Salve have been distributed by the manufacturer. What better proof of their confidence in its merits do you want? It cures piles, burns, scalds, sores in the shortest space of time. People's Drug Co., corner Main East Milwaukee streets.

**EXPEDITION TO MANILA.**

Troops Scheduled to Make Up the Final Invasion.

**CHOICE OF GEN. MERRIAM.**

Veteran Officer Has Selected Well the Soldiers Who Will Follow Him in the Philippines—Transports Are Being Rapidly Made Ready for Service.

San Francisco, Cal., April 11.—Gen. Merriam has chosen the following forces to constitute the next and presumably the final expedition to the Philippines:

Third battalion, Twenty-third infantry, and Second Oregon recruits; 15 officers, 643 men.

Batteries A and D, California heavy artillery; 8 officers, 297 men.

Wyoming light artillery; 2 officers, 106 men.

Nevada cavalry; 2 officers, 94 men.

First Washington infantry; 43 officers, 1,158 men.

Twentieth Kansas infantry; 43 officers, 1,121 men.

First Tennessee infantry; 35 officers, 1,065 men.

Fifty-first Iowa infantry; 43 officers, 1,044 men.

Total, 191 officers, 5,579 men.

In most of the regiments and detachments a great falling off from the original strength is to be observed, which is accounted for by absence on leave, sick furlough, detached service in the general hospital, and by discharges, desertions and deaths.

The battalion of the Twenty-third United States infantry and the recruits for the Second Oregon regiment have been designated for embarkation on the Senator, which will sail by the end of the week, and may carry 200 more men, probably one of the batteries of the California heavy artillery.

The new squadron of transports is rapidly being prepared for service. The Newport has not yet arrived, but is expected at any hour.

The Senator came off the Union iron works' dry dock today, and the Valencia will take her place. The Ohio will also go on the dry dock, and as soon as she has been overhauled the Indiana will take her place. The latter vessel went direct to the quarantine station and will be fumigated before she goes on the dry dock. The Newport will follow the Valencia at the dock and an effort will be made to get all of the four vessels away next week. If they can be fitted out in time they will leave in a bunch. If not, the Senator will sail next Sunday, and the others will follow.

Gen. Merriam has called on Gen. Miller for the complete field returns of all the troops in his command. This is for the purpose of selecting commands for the different transports. They have to be chosen with regard to the capacity of the vessels, and an effort will be made not to overcrowd any of them.

For a National Quarantine.  
Washington, Oct. 11.—The appeal that has come up from Mississippi on account of yellow fever recalls the strenuous opposition made by some southern representatives in the last and preceding congresses to a national quarantine law, and it is likely to revive the interest in such legislation. Senator Caffery's bill was set aside last year mainly on account of the southern opposition to what was denounced as federal interference in local affairs. The representatives from Mississippi were particularly hostile to a national quarantine, and it is said repeatedly asserted the ability of the local health authorities to meet any emergency.

National Bank of Hawaii.  
San Francisco, Cal., Oct. 11.—The call says that when the Gaelic leaves this port tomorrow she will have on board two local bankers and some New York capitalists bound for Hawaii. Upon their arrival a bank will be established in Honolulu, to be called the First National Bank of Hawaii, with a capital of \$1,000,000. The party will be accompanied by a personal representative of Perry S. Heath, the assistant postmaster-general, who secured the charter for the bank.

Italy Reduces Naval Expenses.  
Rome, Oct. 11.—Owing to Italy's financial straits, the minister of marine, Admiral Di Canevaro, has renounced the sweeping naval program, involving the expenditure of 540,000,000 lire, and will be satisfied with a naval credit this year of 28,000,000 lire. A ministerial crisis is thus averted. It is expected that the budget for the current year will show a deficit of 17,

## SCHINDLER'S PECULIAR CASE.

Candidate Schindler is willing to ride two horses at once, and only took his left foot off of the populist mule's back when the court said that he would have to. When he finally did so, the populists figured to put another man in his place. Now, however, the question is raised as to whether or not this can be done, and the populists will consult the attorney general as to the powers of the people's party state central committee to declare a vacancy on the ticket of that party by reason of the election of John F. Schindler, the nominee of both the people's party and the democratic state conventions for the office of insurance commissioner, to have his name placed on the democratic ticket. The point has been raised that Mr. Schindler is still the technical nominee of the people's party, although his name will not be printed on its ticket; that while there will be a blank space on the people's party ticket so far as a candidate for insurance commissioner is concerned, it is beyond the province of the people's party state central committee to supply a candidate for the reason that Mr. Schindler, the nominee of the people's party convention, has not resigned his right to the nomination, and he is still in the land of the living. The statutes in such cases made and provided declare that a vacancy may be filled on the resignation or the death of the candidate nominated by the convention. Mr. Schindler, it is claimed, is still the choice of the people's party state convention for the office of insurance commissioner, no matter upon which ticket he selects to have his name appear upon the official ballot.

The English Lutheran Synod met at Richmond, Indiana and adopted resolutions denouncing theatres and dances. They did not vote to discontinue the revolution of the earth, however, or declare against the ungodly church fair raffle.

General Miles recently made a speech on the subject of "Good Government." General Miles may understand this subject, but it is evident that he has not made a study of "Self government." If he had, he would have talked less.

It would appear that the dead Indian is still the better redskin, although the white man is in a degree responsible for the fact.

Every good citizen should vote on election day. Of course, you will best serve your country by voting the re-

political belief, you should cast your ballot, anyway.

Plans for the movement of General Lee's corps from Jacksonville to Savannah are now complete, and the army will be in Havana before many days.

And now the ultra silver democrats will bolt Judge Sawyer and vote the populist ticket instead of putting a new ticket in the field.

## WOOLEN MILL FILLS ARMY CONTRACT

**MAKES THIRTY-THREE HUNDRED BLANKETS.**

The Deal Was Made Through An Agent In Chicago—Local Mill Was Fully Equal to the Task—Will In All Probability Run Through the Winter.

The Rock River Woolen Mills has just completed an army contract, by the manufacture of 3,300 woolen blankets. Each blanket was five pounds in weight, and a gray-blue in color, and bore the letters "U. S." in blue.

The order came through a Chicago firm who secured the contract direct from the United States government. The blankets have already been shipped, and were as fine a lot as any mill in the country is capable of turning out. Machinery fully capable of handling such a large contract is in the local mill, and the company found but little trouble in fulfilling all requirements.

Jonathan Ellis, proprietor of the mill, who resides in Port Dover, Canada, is now in the city, and will remain for several days. In speaking of business Mr. Ellis says that he has no reason to complain, and that the mills have been enjoying a brisk season in spite of the fact that large mills throughout the country have failed to make the woolen manufacturing business pay during the past year. Present indications are that the woolen mill will run at full force during the coming winter.

Capt. G. H. Roach Ordered West. Chicago, Oct. 11.—Capt. George H. Roach, commander of company B, Seventeenth United States Infantry, at Columbus Barracks, O., has been ordered to report to Gen. Bacon at Walker, Minn., for duty in connection with the Indian troubles in that locality. A telegram directing that Capt. Roach be detached from his post for service in Minnesota was received by Col. Thomas F. Barr, acting commander of the department of the lakes, yesterday. Roach has had considerable experience on the frontier in treating with belligerent Indians and that circumstance is thought to have caused his selection. The captain is now on his way to Walker.

## Archbishops Meet Today.

Washington, Oct. 11.—The annual meeting of the archbishops of the Catholic church in the United States is being held at the Catholic university. The most important matter to be considered is the future management of the church in the islands of Cuba and Porto Rico. As soon as either island becomes a part of the United States the church will transfer its allegiance from the Spanish to the American branch. Many of the clergy in the islands will doubtless return to Spain rather than become American citizens. Their places will be filled from the church in the United States.

COUNCIL TRANSACTS  
ROUTINE BUSINESSA LARGE NUMBER OF MATTERS  
CLAIM ATTENTION.

New Sidewalk Ordinance Introduced Promising a Better System of Construction—New Buildings On the Mill Race—Polling Booths Secured—A Variety of Matters.

The common council met in regular session last evening. Mayor Thoroughgood in the chair, and all the aldermen being present except Fifield and Peters. A petition was read from the Blodgett Milling company, asking permission to extend their warehouse building, located opposite the mill known as Hodson mill, fifteen feet from its present east end to the Chicago, Milwaukee & St. Paul Railway's right of way, using the same construction as that used in the present building; also to erect, adjoining the present warehouse building on the north, another warehouse building, 30 feet wide and 105 feet long, extending from River street to the Chicago, Milwaukee & St. Paul railway right of way and of the same construction as the present warehouse building. The petition was granted.

**Sidewalk Building.**  
An ordinance was introduced by Alderman Carpenter providing that all sidewalks hereafter built, except those on East Milwaukee street, from Division street to Rock River; West Milwaukee from Academy to Rock river; North Main from Prospect avenue to East Milwaukee; South Main from East Milwaukee to South First; South River from West Milwaukee to Pleasant, shall be constructed of sound two-inch plank, securely spiked with twenty-penny nails to sound pine or oak bearings not less than 2 by 4 inches in size, laid upon an even grade not more than a half foot apart and with not less than three such bearings, when the plank is laid crosswise and not less than five feet and four inches wide, which shall be known as a standard sidewalk. All sidewalks hereafter built upon said excepted portions of East and West Milwaukee street, North and South Main street and South River street, shall be constructed of concrete, artificial stone, dressed stone, paving brick, tile or asphaltum, in the most approved manner, and shall extend in width from the curb line to the outer line of the street. It further provides that any person who shall construct or cause to be constructed, or assist in constructing any sidewalk in the city except in the manner provided, shall be liable to a penalty of not less than \$5 nor more than \$25 for each offense, and to a like penalty for each and every day he shall fail to remove or reconstruct any such sidewalk after notice from the city marshal so to do. Nothing shall be construed in the ordinance to prohibit the construction of any sidewalk outside of said excepted portions of Milwaukee, Main and South River streets and within the city of concrete, artificial stone, dressed stone, paving brick, tile or asphaltum. It shall be the duty of the street commissioner and city marshal to strictly enforce all the provisions of the ordinance.

The highway committee will consider the ordinance.  
An ordinance making amendments to the city charter was introduced by Ald. McLean and referred to the highway and bridge committee.

An oil lamp will be placed on the After road in the Fifth ward.

## Polling Booths.

The committee on election booths reported that they had secured William Skelly's building for the second district of the Fourth ward at \$3 per day for registration and \$6 for election; also the Janesville Machine Co.'s building on South River street for the first district at \$3 per day. They had also secured a lease and a contract for a building owned by the Myers estate on North Main street at an annual rental of \$25, and on his motion the mayor was requested to sign the contract on the part of the city. Adopted.

HARVEST OF THE  
REAPER DEATHJOHN T. WILCOX DIES AT MEN-  
DOTA OF PARESIS.

Was Long a Prominent Citizen and Active in Masonic and Grand Army Circles—Served During the War of the Rebellion—Other Mortuary Matters.

At 3:15 yesterday afternoon John T. Wilcox, once a prominent citizen of Janesville, died at the Mendota hospital, whither he had been taken in June last for treatment for a mental malady brought on by a stroke. No improvement in his condition was apparent as time passed on, and it was soon manifest that paresis had fastened itself upon him, and that death was the only result.

Mr. Wilcox was a native of Rhode Island, where he was born in 1837. Forty-two years ago he came to Janesville, and shortly after his arrival he was married to Miss Effie Luman. He was appointed chief engineer of the fire department, and for two years was alderman from his ward. He was a member of the Twelfth Wisconsin Battery during the civil war and was an honored member of W. H. Sargent Post No. 20, G. A. R. He was also a member of the Odd Fellows and of Janesville Lodge No. 55, F. & A. M.

Four children, two daughters and two sons, survive him. Mrs. Fred C. McLean, Mrs. John H. Jones, A. Lee Wilcox and John T. Wilcox.

Mr. Wilcox was a carpenter by trade, and built many of the finest residences in Janesville in the early days. The remains were brought to this city this afternoon and conveyed to his late residence, No. 101 Locust street. The funeral will be held here on Thursday afternoon at two o'clock. Rev. Henry Sewell, of Evansville, will officiate, and the ceremonies at the grave will be under charge of the missions. The interment will be in Oak Hill cemetery.

## IN MEMORY OF FRED P. KING

[BY A LOVING FRIEND.]  
Our darling Fred is on the border,  
Of the glorious happy land;  
He'll never again receive an order,  
Or a grip from death's cold hand;  
For soon he'll with the angels sing  
"Glory be to God," our heavenly King.

He said: "Tell me of my own dear Nanette;  
Poor, dear girl she loves me well;  
Write to her a kindly letter  
And to her my true love tell.  
Tell her I am passing over,  
But that hope is by my side;  
By and bye I hope to greet her  
And to claim my heavenly bride;  
There, to walk the streets of gold,  
Where we never shall grow old;  
Where pain and sorrow never come  
And safely we will rest at home."

How empty seems our lives without him,  
But we must be reconciled.  
For our loving, heavenly Father  
Has but called his suffering child,  
To meet his kindred ones before,  
From them to be paraded nevermore.  
Remember I hear his Grandma King  
Aid to her darling grandson in.

(Where God, our Father, calls in state.)  
And placing a crown upon his head,  
Says: "Welcome home, my own dear Fred."
